Leadership Academy 2011-2012

Remarkable Leadership

Improving performance is a mandate for all managers and CEOs in this new world into which we are headed. Without improved performance, care suffers, bottom lines wither and morale declines. Good performance is self-reinforcing; it motivates people and makes them want to come to work.

WHA is pleased to announce the 2011-2012 WHA Leadership Academy. Our program has been revamped based on your ideas, insights and requirements. In response to requests for professional development, it is designed as a high-impact, results-oriented program. With management intensives that focus on skills from Leadership to Communications, the Academy is your one-stop-shop for your leadership needs. The Academy continues to deliver the tools that managers need to be successful leaders within their respective organizations. We are proud to bring such a leading-edge program to our members.

Who should attend?

Newly appointed managers or existing managers with leadership/performance goals; individuals with a demonstrated long-term commitment to their organization; individuals with "high potential" for future leadership roles; and existing managers looking to hone their skills or re-energize their role in the workplace.

Featuring full-day in-person classes and WebEx sessions with world-class facilitators, these classes are guaranteed to take your leadership skills to the next level.
