

# Peer Review Network

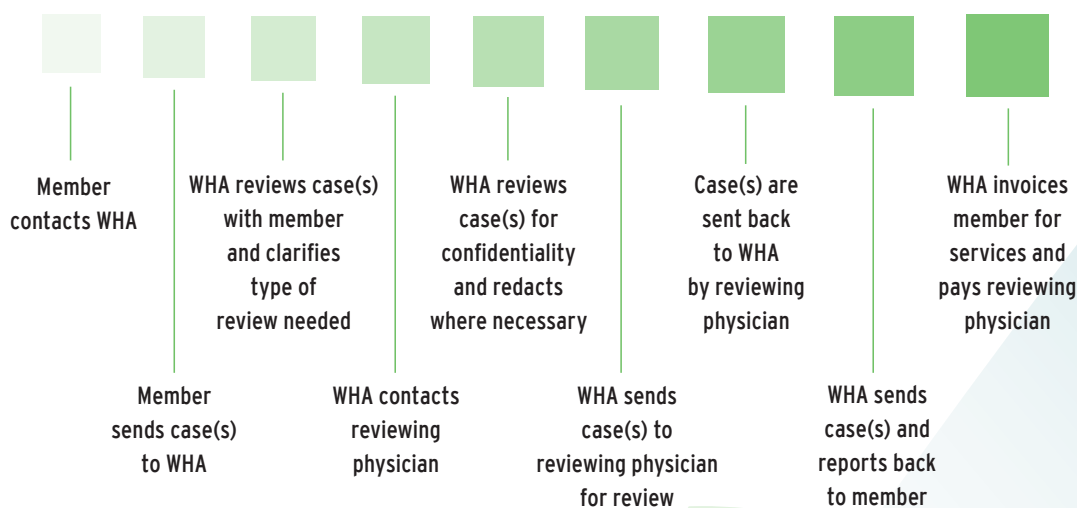

## For Performance Review Consulting

Western Healthcare Alliance (WHA) developed its **Peer Review Network** to provide assistance with peer review activities for healthcare providers. WHA acts as an intermediary, creating a large pool of reviewing practitioners while providing complete confidentiality to all parties involved in the process.

### Highlights

- » Enables providers to continuously improve patient care through identification of opportunities for improving both the process and the personal delivery of patient care.
- » Cases are reviewed by practitioners in good standing and are MD or DO Board Certified or otherwise eligible.
- » Physicians reviewing the cases are objective and critical, and practice in a similar specialty and environment.
- » Cases and reports are kept strictly confidential.
- » Services are easy to use and cost effective.

### WHA Peer Review Process
