

Effective leadership training

It can be challenging to ensure quality training for healthcare leaders in our rural communities. Often times staff will have to travel far for expensive classes while managing their very busy schedules. Western Healthcare Alliance (WHA) has been bringing healthcare leadership education to its members for over 10 years. We listen and respond by providing leading experts in relevant topics for today's healthcare leader.

The WHA Effective Leadership Series, presented by WHA's Leadership Academy, focuses on different topics geared toward improving performance and motivating staff to be the best they can be. Courses are based on member feedback and suggestions.

Who should attend? Newly appointed managers or existing managers with leadership/performance goals, individuals with a demonstrated long-term commitment to their organization, individuals with high potential for future leadership roles, and existing managers looking to hone their skills or re-energize their role in the workplace. Featuring four full-day in-person classes and four WebEx sessions with world-class facilitators, these classes are guaranteed to take your leadership skills to the next level. Each academic year runs from September through June.

Register today at wha1.org!

Goals for the series

- ▶ **Communication Skills**—focusing on effective communication that is essential to great leadership, management, and patient safety.
- ▶ **Management Skills**—supporting managers as they transition from transactional work to strategic managers who execute the vision of the organization while empowering staff.
- ▶ **Business Skills**—focusing on the business of healthcare so that emerging leaders will understand their role within the context of the healthcare system and their organization's strategic plan.
