

MEDICAL FINANCING

Simple-interest financing options for large balances

There are some patients who have the desire to pay their healthcare bill, but lack the resources to do so. It can be a challenge trying to determine the best course of action for these patients especially when you have limited time and dedicated staff to manage these accounts.

AR Services provides a new payment option for those patients that need to pay their bills over an extended period with interest. Patients can sign up without a credit check and the risk of being reported on their credit report. AR Services will then manage the payment arrangement for you, thereby alleviating time and resources so you can focus on providing the best care possible.

Highlights:

- ▶ Everyone with a balance of over \$500 qualifies for the program.
- ▶ Sign-up fee is only \$25.
- ▶ Patient is charged 12% interest and there is no pre-pay penalty.
- ▶ Monthly payments are affordable and tailored to the individual.
- ▶ Facility receives the full amount of the principal over the term of the loan.
- ▶ Late notices and follow-up calls are made by AR Services.
- ▶ Delinquent accounts are turned over to our collection agency, sent back to the facility, or to another collection service of choice.
