CEDARON

calm the storm.

Cost-effective rehabilitation EMR software with Cedaron

You'd probably rather spend more time providing patient care and less time documenting it. Finding cost-effective rehabilitation EMR software that is all encompassing can be difficult.

Western Healthcare Alliance (WHA) partners with Cedaron to bring members a powerful practice management software that provides complete scheduling, documentation, outcomes, charge capture, and billing solutions in one comprehensive, easy-to-use system.

Spend more time providing patient care and less time documenting it

Endorsed. Cedaron CONNECT is the only rehabilitation documentation and practice management solution developed exclusively with the American Physical Therapy Association (APTA).

Secure, simple integration with existing systems. CONNECT easily interfaces with all major electronic health records for streamlined implementation and integration. The system allows for charge capture based on the Plan of Care, ensuring departments are always up to code and meet state and federal requirements. CONNECT also supports compliance and adherence to Meaningful Use requirements.

Expandable. For those facilities doing more than PT, packages are available for Occupational, Speech and Hand Therapies designed in conjunction with the American Society of Hand Therapists and American Occupational Therapy Association.

Receive payment for the services provided. Automated alerts, processes, and calculators, which ensure accurate documentation and strict compliance for complete billing efficiency and confidence, resulting in faster and greater reimbursements, come standard with CONNECT.

Member benefits. Cedaron provides exclusive discounts to WHA members and facilitates user groups for collaborative best practices.

Cedaron can help you

- Meet all reporting and confidentiality requirements.
- Effortlessly analyze treatment data and effectiveness.
- Reduce overhead costs.
- Improve billing practices and reduce denials.
- Pass "impassible" audits, including RAC audits.
- Benchmark outcomes with peers nationwide.
- Streamline processes to reduce administrative work time for staff.
