

WESTERN HEALTHCARE ALLIANCE

Members collaborating for solutions

Get connected • Feel empowered • Be more effective

Western Healthcare Alliance knows you have a lot on your plate with limited time and resources. The Peer Networks provide the opportunity for you to meet with those in your shoes to share ideas, develop programs, determine best practices and prepare for the future.

We also know that you are committed to doing your best and want to bring solutions that mean success for your organization. As a healthcare leader, you should have access to answers without having to sift through countless options.

WESTERN HEALTHCARE ALLIANCE

Collaborating to Improve Rural Healthcare

PEER NETWORKS

Western Healthcare Alliance makes it easier for you to learn best practices in order to be more efficient and create success for your organization. Made up of peers just like you, your peer network consists of others in your role who can relate to your situation. You not only receive solutions, but a great deal of comradery and support. We facilitate over 100 Peer Network meetings per year, providing you access to effective solutions without having to sift through all of the options.

“ I think the best part of the Peer Networks is knowing you’re not alone; that you’ve got this family of like-minded people who want you to succeed and know that we really are in this together. ”

— Annick Pruett
Administrative Director Community Relations, Grand River Health
