

PROVIDING MEMBERS WITH ACCESS TO VIRTUAL CARE SOLUTIONS AND DEVICES.

Colorado Rural Health Center and Western Healthcare Alliance partner with Teladoc Health to provide telehealth services to our collective membership organizations. Teladoc Health is the world's only integrated virtual care system for delivering, enabling, and empowering whole-person health — from wellness and prevention to acute care to complex healthcare needs.

The mission at Teladoc Health is to empower people everywhere to live their healthiest lives by transforming the healthcare experience. The company enables enterprise-wide virtual care for a wide range of consumer and provider-to-provider use cases across nearly any care setting — including urban, suburban, rural, and frontier markets. From purpose-built point-of-care devices to solutions that integrate with your systems and workflow, they have what you need to extend your organization's reach and impact across the entire care continuum.

Founded on a simple yet revolutionary idea, Teladoc Health believes that patients should have access to the best healthcare, anywhere in the world, on their own terms. Today, they're delivering on their mission by providing whole-person virtual care that extends the reach of your clinicians to more care sites and enhances your organizations impact on health and satisfaction outcomes.

Teladoc Health is entrusted to serve over 12,000 clients worldwide including global employers, health plans, global insurers, hospitals, and health systems. The company was also recognized in the "2020 Best in KLAS for Software & Service" report for Virtual Care Platforms.

Solutions Spanning a Full Spectrum of Care

Consumer Care: Give your patients access to more convenient care by offering on-demand or scheduled access to your care team, and underscore clinical quality guidelines from anywhere.

High-acuity Care: Provide life-saving care when the minutes matter most by fostering greater clinical collaboration in critical care environments.

Continuing Care: Extend specialty access and oversight by connecting your specialists and clinicians to patients, wherever they may be, as they move to lower-acuity care sites.

Telehealth is now mainstream. To serve your patient's needs you need the best-in-class efficiency and productivity today. Learn how Teladoc Health can help you!
