

Reference Laboratory Testing

**Commitment to Community:
Helping Rural Hospitals
Deliver Quality Care**

For more than 30 years it has been the goal of Mayo Clinic Laboratories to help organizations such as Western Healthcare Alliance (WHA) strengthen their efforts to provide exceptional laboratory services and patient care to rural communities.

WHA partners with Mayo Clinic Laboratories to help provide rural hospitals with access to thousands advanced and newly developed diagnostic, theranostic, and prognostic tests.

Mayo Clinic Laboratories improves your hospital's power to care for the communities you serve with consolidated testing services and robust expertise from Mayo Clinic's network of doctors, scientists, and researchers dedicated to finding answers to complex medical questions. This ensures you receive the highest quality results delivered in the most efficient manner, improving patient outcomes, and controlling your costs.

Mayo Clinic Laboratories offers unparalleled customer support as a critical component of our partnerships. Our dedicated and professional team provides personalized service to ensure a successful relationship that adapts to unique hospital needs. A 24/7 customer service center, multilingual agents, world-class logistics, and fast turnaround times come together to streamline daily operations while advancing optimal delivery of care.

Helping Hospitals Maximize the Value of Their Labs

4,400

tests and pathology services to answer the most difficult clinical questions

26M

tests performed annually that deliver fast, accurate answers

5,700

Mayo Clinic physicians and scientists available for consultation 24/7

Mayo Laboratory Inquiry, Mayo Clinic Laboratories' call center, is staffed 24/7, 365 days a year. **Calls are always answered by a live representative.**

"The type of service we provide is really tailored to the needs of the hospital or to the healthcare system. And their patients are no different than the patients that walk through our doors."

**- William Morice, MD, PhD
CEO & President, Mayo Clinic Laboratories**
